Date due:	**Sunday 25th July 2024 by 11.59 pm**
Date submitted:	**Sunday, 25 July 2024**

Academic Misconduct

I understand that I will be subject to the penalties imposed for breach of academic conduct as defined in the College's Academic Misconduct Procedure (QAJ6).

Signature: <u>Sergio Alves Da Silva</u>   Date: **25 July 2024**

Description of site design

Night Web Club Documentation.

Introduction

Night Web is a website designed for fans of horror movies. It serves as a club where enthusiasts can discuss their favourite films, share insights, and delve into the dark, thrilling world of horror cinema. The site's design and structure have been carefully crafted to create an engaging and user-friendly experience for all visitors.

Design

Colour Scheme

The colour scheme for Night Web has been chosen to evoke horror movies' eerie and suspenseful atmosphere. The primary colours used are:

- **Black:** Dominant background colour to provide a dark and mysterious ambience.
- **Red:** Accents and highlights to signify blood and horror elements.
- **White:** For text and elements that must stand out against the dark background.
- **Grey:** Used for secondary elements and backgrounds to maintain a cohesive look.

Typography

The site uses a mix of Sans Serif and custom horror-themed fonts to enhance the eerie vibe. The typography choices ensure readability while contributing to the overall horror aesthetic.

- **Main Text:** Sans Serif for easy reading on screens.
- **Headings:** Custom horror-themed font to create a unique and thematic look.
- **Font Sizes:** Regular font sizes are maintained for readability, with larger sizes for headings and important information.

Layout

The layout is designed to be fully responsive, ensuring optimal viewing on desktop and mobile devices. Grid and flexbox systems keep the content organised and visually appealing.

- **Responsive Design:** Adapts to different screen sizes for a consistent user experience.
- **Grid and Flexbox:** Ensures a structured and flexible layout.

Navigation

Menu Structure

The navigation is simple and intuitive, allowing users to access critical sections of the site easily. A menu bar is placed at the top of the page, featuring the following sections:

- Home: Introduction to the site and latest news or highlights.

- About the club: Information about the club and its purpose.

- News: Information about the latest movies and releases inside horror movie entertainment.

- Quiz/Gallery: Visual content related to horror movies, with funny cosplays from the club members and a brief quiz about the horror movie world.

- Top 10: Information about the scariest horror movies according to members of the Night Web.

- Events: Information about upcoming events and gatherings.

- Forum: An Environment to discuss the events or anything related to Horror movies.

- About us:

- Contact us: Ways to get in touch with the club administrators.

Content

Home

The homepage provides a brief introduction to Night Web, including:

- Welcome Message: A greeting and overview of the site's offerings.

- Shortcut Top 10: Easily access to another page.

- Featured Pictures: A picture showcasing highlights from a horror theme.

About the club

This section offers more information about the club, including its history, mission, and goals. It provides context for why the site was created and what it aims to achieve.

News

A comprehensive section dedicated to horror movies. It includes:

- News Updated: Some articles on various horror films will be released soon.

- Links: External links to check out exciting new trailers of new releases.

Quiz/Gallery

Game: To make the website more interactive and fun for users, it includes a quiz game related to horror movies.

Gallery: We created this area to show more about the members behind Night Web in an extroverted way, with nice cosplays. It's kind of a behind-the-scenes look at our team.

Top 10

- Curated Lists: Lists of top horror movies highly selected and recommended, including all the information for users to have enthusiastic entertainment in a group or alone created by Night web members.

- Media: Horrifying movie posters and external links for a complete experience.

Events

Information about upcoming events related to horror movies, such as:

- Screenings: Details about movie screenings.

- Meetups: Information on club gatherings and events.

- Conventions: Updates on horror movie conventions and festivals.

Forum

A space to share experiences and discuss our events screenings using a real-time chat with simplified tools and style according to our website.

About us

In this section, it's possible to know more individually about each member who created this club and platform in a dark style, showing all our love and dedication through a style related to our theme purpose.

Contact us

Ways to get in touch with the club, including:

**- Contact Form:** A form for visitors to send messages or inquiries.

Client Side Web Development

- **Email:** Individual direct email communication is needed to contact each member for questions that can't be found on our website.
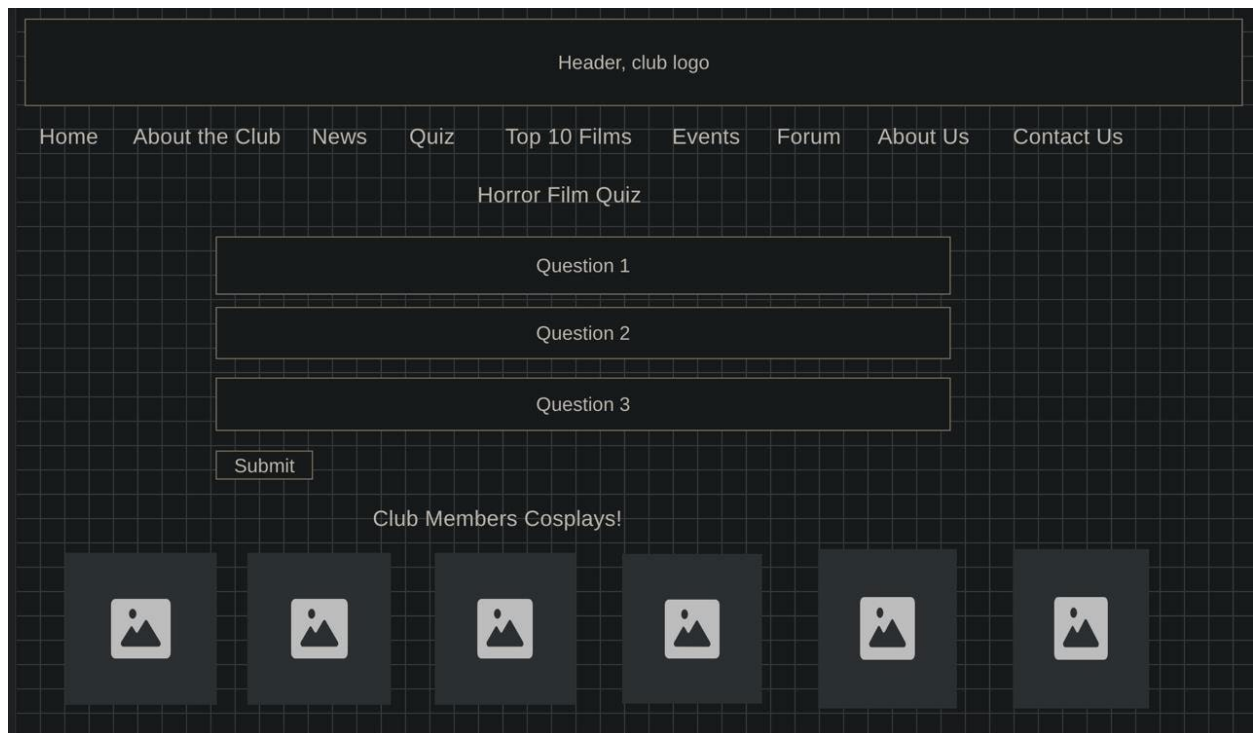

Conclusion

Night Web is designed to be a comprehensive and engaging platform for horror movie fans. With its carefully chosen design elements, intuitive navigation, and rich content, it aims to be the ultimate online destination for those who love the thrill and chill of horror cinema.

Inspiration

So Terror (in English named "**Only Horror.**") is a Page on Facebook we created (Aline and Sergio with Eros agreement) in our college background in Brazil almost 10 years ago, and we decided to develop this idea left behind, bringing it to light using our new skills and creativity to create an original website about a horror movie club.
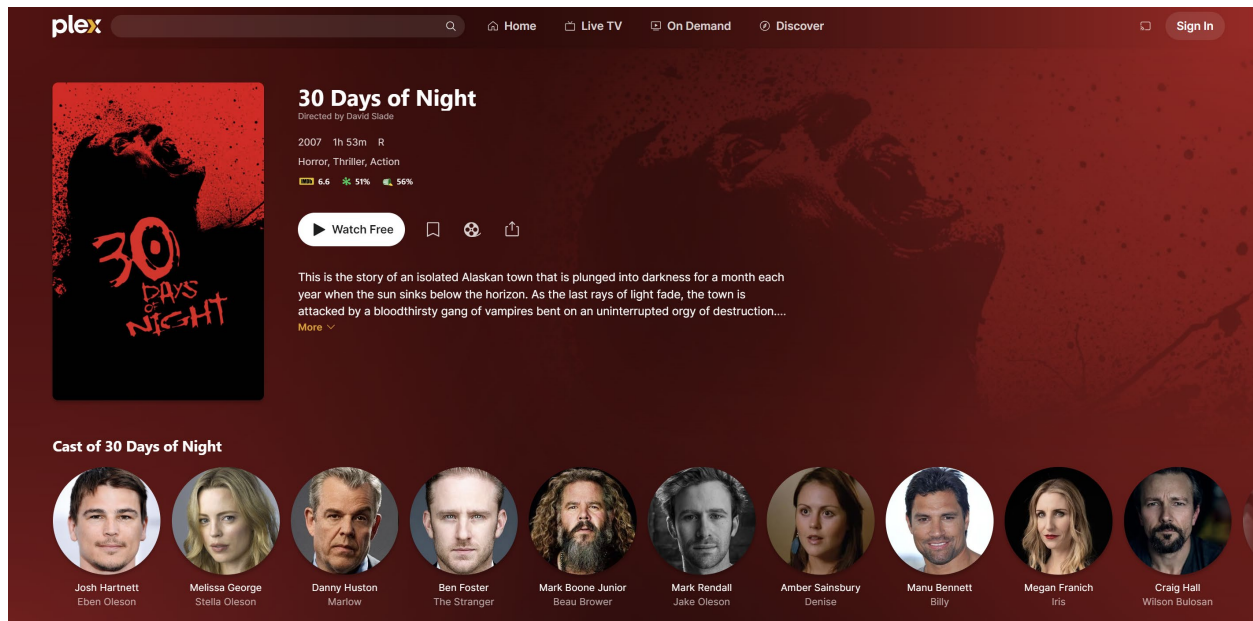

https://www.facebook.com/soterror/

Plex

Plex is media server software that organises your personal collection of movies, TV shows, music, and photos and streams them to various devices, such as smartphones, smart TVs, tablets, and gaming consoles. We appreciate the design and how the website works, and we are using some of its references to develop our website.

Review

Review of Night Web: A Horror Movie Enthusiast's Dream Platform

With the power of website design tools like HTML, CSS, and JavaScript and a lot of determination, Night Web emerges as a stylish and responsive website dedicated to horror movie enthusiasts. The primary idea of creating a club for discussing horror films has been brought to life through meticulous design and functionality.

The dark and eerie colour scheme featuring black, red, white, and grey creates an atmospheric backdrop that perfectly matches the horror theme. The typography, blending Sans Serif for readability with custom horror-themed fonts for headings, enhances the site's unique aesthetic.

Night Web's layout is fully responsive, ensuring a seamless user experience on both desktop and mobile devices. The intuitive navigation menu allows users to easily explore sections like Home, About the Club, News, Quiz/Gallery, Top 10, Events, Forum, About Us, and Contact Us. Each section is thoughtfully designed to engage visitors and provide comprehensive content related to horror movies.

A quiz game and a gallery of member cosplays add an interactive element, making the site not just informative but also fun and engaging.

Night Web is a testament to what can be achieved with modern web design tools and a clear vision. It stands as the ultimate online destination for horror movie fans, providing a platform to share insights, discuss films, and delve deeper into the thrilling world of horror cinema.

Each step was challenging, but at the end of the day, it was worth it because all the processes taught us more about the subject and awakened our curiosity and creativity, which enabled us to do a good job with this website.
